

MARI

Mandala Assessment
Research Instrument

MARI is a comprehensive psychological assessment tool based on Jungian concepts that uses the mandala, archetypal symbols and color to reveal a visual picture of the psyche as it really is. Areas of tension and attention in the conscious and unconscious are revealed as well as developmental stages, readiness for change and an in-depth picture around issues of intuition, spirituality and deep mystical states. Individual sessions by appointment.

LEVEL 1 Certification Training – Denver area

3 day classes starting November 6, January 16, March 19 and April 20
\$350 plus \$225 materials fee due 2 weeks prior to start of class.

The MARI Level 1 Training PROVIDES:

- 21.0 contact hours approved by NBCC & NASW
- Your own full MARI kit and Level I manual
- The first step toward certification as a MARI practitioner
- Skills that allow you to begin to 'practice' the MARI with volunteer subjects.
